Perutusan Pengerusi MCPF

YB MENTERI DALAM NEGERI MERANGKAP Pengerusi YAYASAN Pencegahan Jenayah Malaysia (MCPF)

Assalamualaikum Warrahmatullahi Ta'ala Wabarakatuh & Salam Malaysia MADANI.

Alhamdulillah, segala puji dan syukur ke hadrat Allah S.W.T kerana dengan limpah kurnia dan izin-Nya, kita sekali lagi diberikan kesempatan untuk berhimpun sempena Mesyuarat Agung Tahunan Yayasan Pencegahan Jenayah Malaysia (MCPF) kali ke-32.

Saya ingin merakamkan setinggi penghargaan dan terima kasih kepada seluruh barisan kepimpinan MCPF di setiap peringkat atas komitmen dan dedikasi yang tidak berbelah bahagi dalam merancang serta melaksanakan pelbagai inisiatif pencegahan jenayah. Peranan yang dimainkan oleh MCPF amat signifikan dalam membentuk persekitaran yang lebih kondusif, selamat dan harmoni, seterusnya memberikan keyakinan kepada masyarakat dalam menghadapi ancaman jenayah yang semakin kompleks.

Tahun 2024 telah menyaksikan pelbagai pencapaian membanggakan dalam usaha meningkatkan kesedaran masyarakat terhadap pelbagai isu jenayah. Antara kes-kes jenayah yang mendapat perhatian utama termasuk jenayah siber, isu perdagangan manusia dan penyeludupan (APTISOM), jenayah ekstremisme serta ancaman dadah. Cabaran jenayah semakin licik dan berbahaya, khususnya apabila ia melibatkan jenayah rentas negara.

MCPF sewajarnya mengorak strategi menjangkau kebiasaan bagi memastikan MCPF kekal relevan selaras dengan peredaran masa. Misalnya, pada tahun 2024 saya telah juga menandatangani Memorandum Persefahaman (MoU) bersama beberapa negara bagi menjalin kerjasama strategik dalam menangani ancaman ini. Dalam masa yang sama, KDN juga giat menerokai pelbagai teknologi moden seperti kecerdasan buatan (AI) dan peralatan terkini dan lebih canggih bagi memperkukuhkan kesiapsiagaan barisan keselamatan negara. Bagi merealisasikan inisiatif ini, KDN turut menjalinkan kerjasama strategik bersama pakar dalam dan luar negara. Penganjuran AISSE25 baru-baru ini juga telah membuka lebih banyak ruang dan peluang bagi membentuk jaringan kerjasama yang lebih efektif dalam menangani ancaman jenayah berasaskan teknologi.

Dalam konteks jenayah siber, ia kini menjadi ancaman utama yang memberi impak besar kepada keselamatan rakyat Malaysia. Lebih membimbangkan, mangsa jenayah ini terdiri daripada pelbagai lapisan masyarakat, termasuk anak muda, golongan profesional serta warga emas. Justeru, peranan MCPF amat penting dalam memperhebatkan inisiatif serta program kesedaran bagi mendidik masyarakat tentang ancaman jenayah siber dan langkah-langkah pencegahan yang perlu diambil.

Saya berharap agar MCPF di setiap peringkat akan terus menjadi rakan strategik utama kepada pihak berkuasa dengan merancang serta melaksanakan program pencegahan jenayah yang berimpak tinggi. Kerjasama erat antara MCPF dengan pelbagai agensi kerajaan, pertubuhan bukan kerajaan (NGO), sektor swasta serta kumpulan masyarakat sivil adalah kunci utama dalam memastikan keberkesanan usaha kita dalam membanteras jenayah dan menjadikan Malaysia lebih selamat untuk semua.

Kita mesti sentiasa berada selangkah di hadapan dalam menangani jenayah. Walaupun cabaran ini bukan mudah, saya yakin bahawa dengan semangat kesepaduan dan komitmen tinggi, kita mampu membawa perubahan yang bermakna.

Sekian, selamat bersidang dan terima kasih.

**INDEPENDENT AUDITORS' REPORT
TO THE EXECUTIVE COUNCIL OF
YAYASAN PENCEGAHAN JENAYAH MALAYSIA**
(Malaysia Crime Prevention Foundation)
(Registered under the Societies Act, 1966 in Malaysia)

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of **YAYASAN PENCEGAHAN JENAYAH MALAYSIA**, which comprise the statement of financial position as at 31 December 2024, and the statement of comprehensive income, statement of changes in accumulated funds and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information, as set out on pages 5 to 17.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Foundation as of 31 December 2024, and of its financial performance and its cash flows for the year then ended in accordance with the Malaysian Private Entities Reporting Standard.

Basis for Opinion

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are described further in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence and Other Ethical Responsibilities

We are independent of the Foundation in accordance with the *By-Laws (on Professional Ethics, Conduct and Practice)* of the Malaysian Institute of Accountants ("By-Laws") and the International Ethics Standards Board for Accountants' *International Code of Ethics for Professional Accountants (including International Independence Standards)* ("IESBA Code"), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

(Forward)

Executive Councilors' Responsibilities for the Financial Statements

The Executive Councilors of the Foundation are responsible for the preparation of these financial statements so as to give a true and fair view in accordance with the Malaysian Private Entities Reporting Standard in Malaysia. The Executive Councilors are also responsible for such internal control as the Executive Councilors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Foundation as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is high level of assurance, but is not guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements of the Foundation, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedure that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Foundation's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Executive Council.

(Forward)

- Conclude on the appropriateness of the Executive Council's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Foundation's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Foundation or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Foundation to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements of the Foundation, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Executive Council regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Other Matters

This report is made solely to the Executive Councilors of the Foundation, as a body, and for no other purpose. We do not assume responsibility to any other person for the content of this report.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2024**

1. GENERAL INFORMATION

The principal objectives of the Foundation are to contribute to the enhancement of effective measures for crime prevention and the treatment of offenders, and to promote public awareness of and participation in crime prevention efforts. The Foundation is a non-profit organisation.

The total number of employees of the Foundation as at 31 December 2024 was 7 (2023: 6).

The registered office of the Foundation is B-3A-13 Blok B Level 4 Unit 13, Megan Avenue II, Jalan Yap Kwan Seng, 50450 Kuala Lumpur.

The financial statements were approved and authorised for issue in accordance with a resolution of the Executive Council dated 10 March 2025.

2. BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS

The financial statements of the Foundation have been prepared in accordance with the Malaysian Private Entities Reporting Standard ("MPERS") issued by the Malaysian Accounting Standards Board ("MASB").

3. SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Foundation have been prepared under the historical cost convention.

Income Recognition

Income is recognised to the extent that it is probable that the economic benefits will flow to the Foundation and the revenue can be reliably measured. Income is measured at the fair value of consideration received or receivable.

(i) **Income from donation and entrance fee**

Income from donation and entrance fee is recognised on a receipt basis.

(ii) **Annual subscription fee**

Annual subscription fee income is recognised on an accrual basis.

(iii) **Interest income**

Interest income is recognised on an accrual basis.

(iv) **Dividend income**

Dividend income is recognised when the right to receive payment is established.

Tax Expense

The Foundation is exempted from taxation under the Paragraph 13, Schedule 6 of the Income Tax (Amendment) Act, 1967.

Functional Currency

Functional currency is the currency of the primary economic environment in which the entity operates.

The financial statements are presented in Ringgit Malaysia ("RM"), which is the Foundation's functional and presentation currency. The Foundation determines its functional currency as RM and measures its results and financial position in that functional currency.

Employee Benefits

(i) **Short-term employee benefits**

Wages, salaries, paid annual leave and sick leave, bonuses and non-monetary benefits are recognised as an expense in the year in which the associated services are rendered by the employees of the Foundation.

(ii) **Defined contribution plans**

The Foundation's contributions to the Employees Provident Fund are recognised in the statement of income and expenditure in the financial year to which they relate. Once the contributions have been paid, the Foundation has no further payment obligations and other staff benefits.

Plant and Equipment

Plant and equipment are stated at cost less accumulated depreciation and any accumulated impairment losses.

The straight line method is used to write off the cost of the assets over the term of their estimate useful lives at the following principal annual rates:

Building	2%
Computer	25%
Office furniture, fittings and renovation	25%
Motor vehicles	25%
Office equipment	25%

Gain or loss arising from the disposal of an asset is determined as the difference between the net disposal proceeds and the carrying amount of the asset, and is recognised in the statement of comprehensive income.

Impairment of Assets

The carrying amounts of plant and equipment are reviewed at the end of the reporting year to determine whether there is any indication of impairment. If such an indication exists, the assets' recoverable amounts are estimated. An impairment loss is recognised whenever the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. All impairment losses are charged to the profit or loss.

The recoverable amount of an asset is the higher of its fair value less costs to sell and its value-in-use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

An impairment loss is only reversed to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised. All reversals are recognised in the statement of comprehensive income.

Provisions

Provisions are made when the Foundation has a present legal or constructive obligation as a result of past events, when it is probable that an outflow of resources will be required to settle the obligation, and when a reliable estimate of the amount can be made.

Provisions are reviewed at the end of each reporting year and adjusted to reflect the current best estimate. Where the effect of time value of money is material, the amount of provision is the present value of the expenditure expected to be required to settle the obligation.

Financial Instruments

(a) Initial Recognition and Measurement

The Foundation recognises a financial asset or a financial liability in the statement of financial position when, and only when, the Foundation becomes a party to the contractual provisions of the instrument.

On initial recognition, all financial assets and financial liabilities are measured at fair value, which is generally the transaction price, plus transaction costs if the financial asset or financial liability is not measured at fair value through profit or loss. For instruments measured at fair value through profit or loss, transaction costs are expensed to profit or loss when incurred.

(b) Subsequent Measurement of Financial Assets

After initial recognition measurement, the Foundation measures all financial assets at amortised cost using the effective interest method, except for investment in ordinary shares, which are publicly traded, hence their fair value can be measured reliably, therefore the investments are measured at fair value with changes in fair value recognised in profit or loss.

All financial assets are subject to review for impairment in accordance with impairment and uncollectibility of financial assets.

(c) Subsequent Measurement of Financial Liabilities

After initial recognition, the Foundation measures all financial liabilities at amortised cost using the effective interest method.

(d) Recognition of Gains and Losses

For financial assets and liabilities carried at amortised cost, a gain or loss is recognised in the statement of comprehensive income only when the financial asset or liability is derecognised or impaired, and through the amortisation process of the instrument. For financial assets (except for financial assets measured at fair value through profit or loss) are assessed at each reporting date whether there is any objective evidence of impairment.

(e) Impairment and Uncollectibility of Financial Assets

The Foundation applies the incurred loss model to recognise impairment losses of financial assets. At the end of each reporting period, the Foundation examines whether there is any objective evidence that a financial asset or a group of financial assets is impaired. Evidences of trigger loss events include:

- (i) significant difficulty of the issuer or obligor;
- (ii) a breach of contract, such as a default or delinquency in interest or principal payment;
- (iii) granting exceptional concession to a customer;
- (iv) it is probable that a customer will enter bankruptcy or other financial reorganisation;
- (v) the disappearance of an active market for that financial asset because of financial difficulties; or
- (vi) any observable market data indicating that there may be a measurable decrease in the estimated future cash flows from a group of financial assets.

For receivables carried at amortised cost, the revised estimated cash flows are discounted at the original effective interest rate. Any impairment loss is recognised in the statement of comprehensive income and a corresponding amount is recorded in a loss allowance account. Any subsequent reversal of impairment loss of the financial asset is reversed in profit or loss with a corresponding adjustment to the allowance account, subject to the limit that the reversal should not result in the revised carrying amount of the financial asset exceeding the amount that would have been determined had no impairment loss been recognised previously.

For other receivables, where the effect of discounting is immaterial, impairment loss is tested for each individually significant receivable wherever there is any indication of impairment. Individually significant receivables for which no impairment loss is recognised are grouped together with all other receivables by classes based on credit risk characteristics and aged according to the past due periods. A collective allowance is estimated for a class group based on the experiences of loss ratio in each class, taking into consideration current market conditions.

(f) Derecognition of Financial Instruments

For derecognition purposes, the Foundation first determines whether a financial asset or a financial liability should be derecognised in its entirety as a single item or derecognised part-by-part of a single item or of a group of similar items.

A financial asset, whether as a single item or as a part, is derecognised when, and only when, the contractual rights to receive the cash flows from the financial asset expire, or when the Foundation transfers the contractual rights to receive cash flows of the financial asset, including circumstances when the Foundation acts only as a collecting agent of the transferee, and retains no significant risks and rewards of ownership of the financial asset or no continuing involvement in the control of the financial asset transferred.

A financial liability is derecognised when, and only when, it is legally extinguished, which is either when the obligation specified in the contract is discharged or cancelled or expires. A substantial modification of the terms of an existing financial liability is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. For this purpose, the Foundation considers a modification as substantial if the present value of the revised cash flows of the modified terms discounted at the original effective interest rate differs by 10% or more when compared with the carrying amount of the original liability.

Operating Lease

A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership.

The lease payments under an operating lease are recognised as an expense on the straight-line basis over the lease term unless another systematic basis is more representative of the time pattern of the user's benefit.

Statement of Cash Flows

The Foundation adopts the indirect method in the preparation of the statement of cash flows. Cash equivalents are short-term, highly liquid investments with maturities of three months or less from the date of acquisition and are readily convertible to cash with insignificant risk of changes in value.

4. INCOME TAX EXPENSE

No provision for estimated current tax payable has been made as the Foundation is exempted from taxation under the Paragraph 13, Schedule 6 of the Income Tax (Amendment) Act, 1967.

NAVY CADET'S MURDER

NGO: DEATH PENALTY FOR 6 EX-UPNM STUDENTS JUSTIFIED

Torturing someone to death a violation of human norms, says MCPF

PUTRAJAYA

The death sentence for six former Universiti Pertahanan Nasional Malaysia (UPNM) students for the murder of naval cadet officer Zulfarhan Osman Zulkarnain seven years ago is justified, says the Malaysia Crime Prevention Foundation (MCPF).

MCPF senior vice-chairman Datuk Seri Ayub Yaacob yesterday said the organisation believed that torturing someone to death was a violation of human norms, especially when perpetrated by educated individuals.

"The act of taking a human life by those with no regard for others is no-

to impose it in certain cases," Suhakam had voiced its objection to the death penalty handed down to the six former students arguing that such a punishment was neither a fair nor effective solution.

The human rights watchdog said the government should consider the implementation of the death penalty and work towards a more equitable and humane justice system.

On Tuesday, the Court of Appeal sentenced to death six former UPNM students, Muhammad Akmal Zuhairi Azmi, Muhammad Akmal Zuhairi Azmi, Muhammad Akmal Zuhairi Azmi, Muhammad Akmal Zuhairi Azmi, Muhammad Akmal Zuhairi Azmi, and Muhammad Akmal Zuhairi Azmi.

Prioritise drug prevention to ensure confidence in force'

KUALA LUMPUR: An anti-crime watchdog has urged authorities to prioritise prevention strategies to raise awareness about drug abuse among police.

Mohd Ali, a Malaysia Crime Prevention Foundation senior vice-chairman, said it was important to prioritise rehabilitation and prevention rather than focusing on arrests and investigations.

"Prevention should come before investigation."

"We must focus on preventing

cutting and convicting.

"Prevention, awareness, education, supervision and mentoring are essential."

"There should also be funding allocated for prevention and education," he told the *New Straits Times*.

On Tuesday, the NST revealed that in the past decade, 505 police officers had lost their jobs due to drug addiction and another 50 officers and 581 cops of other ranks were disciplined for drug use.

force, said prevention and education programmes should move beyond schools to include enforcement agencies, adding that more counsellors should be recruited as part of the effort.

He said drug addiction in the force could contribute to higher crime and allow drug syndicates to flourish.

"As an authority, it is our duty to ensure there are no drug smuggling, selling, distribution and processing."

"If we use our power to priori-

these pushers, we are colluding with criminals and syndicates."

Ayub said though only about 50 officers were affected in a year out of 130,000, this could affect public perception.

"If people see police officers as drug addicts, it changes the narrative."

"Taking action is crucial. There will always be a few bad apples, and this reflects broader humanitarian concerns."

KES ZULFARHAN: ENAM BEKAS PENUNTUT UPNM DIHUKUM MATI

MCPF tak setuju bantahan dibuat Suhakam

Putrajaya: Yayasan Pencegahan Jenayah Malaysia (MCPF) tidak bersetuju dengan bantahan dibuat Suruhanjaya Hak Asasi Manusia Malaysia (Suhakam) berhubung hukuman gantung sampai mati yang dijatuhkan ke atas enam bekas penuntut Universiti Pertahanan Nasional Malaysia (UPNM).

Foundation senior vice-chairman Datuk Seri Ayub Yaakob proposed that car manufacturers and dealers include GPS trackers for all vehicles and not just as an added feature.

"Manufacturers and vehicle owners can also consider having enhanced encryption, two-factor authentication, and physical security features in their vehicles, combining electronic systems with physical deterrents."

"Another precautionary measure is installing a vehicle tracking system and camera with a remote location of your vehicle as well as capture the suspect for further investigation," he said when contacted.

The retired senior police officer said methods employed by vehicle theft syndicates have evolved. Utility vehicles could be stolen with relative ease.

In cases where one's vehicle is stolen, he said that the victim should stay in contact with the authorities for investigation recovery.

"Be proactive in following up on any leads or information that may arise," he said.

Ambil tindakan tegas penjual 'vape alat tulis'

Kuala Lumpur: Kementerian Perdagangan Dalam Negeri dan Kos Sara Hidup (KPDN) digesa melakukan sebarang dan rampasan ke atas peniaga yang memiliki serta menjual peranti vape dan rokok elektronik menyerupai perkakas alat tulis dengan menggunakan label mengelirukan.

Naib Pengerusi Kanan Yayasan Pencegahan Jenayah Malaysia (MCPF), Datuk Seri Ayub Yaakob, berkata tindakan peniaga dalam talian yang memasarkan barangan, termasuk pelekat menyerupai perkakas alat tulis seperti *highlighter*, gam dan pena penanda adalah tidak bertanggungjawab serta melanggar undang-undang.

"Taktik licik terbaharu dilakukan peniaga ini yang menya-

Palsu dan Mengelirukan," katanya dalam satu kenyataan semalam.

Beliau berkata, MCPF melihat taktik penjualan vape dan rokok elektronik seperti itu boleh mempengaruhi pelajar untuk membawanya ke sekolah tanpa gusar, sekali gus meningkatkan tabiat tidak sihat dan memudaratkan dalam kalangan remaja dan kanak-kanak.

"Malah, penjualan peranti ini secara terbuka dalam talian dan kedai barangan gajet memudahkan pelajar membelinya, sekali gus menyukarkan pemantauan daripada pihak berwajib."

"Ia juga akan merencatkan usaha kerajaan mengurangkan keberagantungan remaja atau pelajar kepada rokok, termasuk yang maskinum Alta Kawalan

BWC use must be monitored, say groups

ETALING JAYA: It's not enough for police personnel to wear Body Worn Cameras (BWC), as periodic assessments are equally important to evaluate the effectiveness of the measure, say crime prevention and anti-graft groups.

Training courses and internal reviews need to be done every six months to improve BWC implementation, they say. Still, it is a step in the right direction towards enhanced transparency, said Malaysia Crime Prevention Foundation (MCPF) senior vice-chairman Datuk Seri Ayub Yaakov who described the BWC rollout as "long overdue".

"BWC procurement must also include a budget for maintenance and spare parts," he said.

Ayub said strict guidelines must be in place for BWC use, stressing the importance of training the personnel to use the system effectively.

"BWC usage, he said, can improve trust between the public and police.

have protection against false accusations," he said.

Transparency International Malaysia (TI-M) president Dr Muhammad Mohan echoed calls for a continuous assessment of the programme's effectiveness.

"This includes addressing technical issues and ensuring that the footage is used appropriately. Most importantly, the police must transparently report the system's effectiveness," he said, adding that interactions at police stations also need to be recorded.

BWCs, he said, can also help deter corrupt practices.

"They provide reliable evidence that can be used in investigations and prosecutions, making it harder for corruption to go unnoticed," he said.

There were concerns, though, about the privacy of individuals being recorded, especially in sensitive situations.

"There is a risk that footage can be selectively used or manipulated," he said.

"It is important to address these concerns through clear policies and monitoring to ensure their effectiveness," he added.

said strict protocols must be in place when implementing BWC use.

"Privacy concerns must be comprehensively addressed with the footage used only for its intended purpose and stored securely," said Sundramoorthy, who is with Universiti Sains Malaysia's Centre for Policy Research.

He said the data generated must not be tampered with.

"Clear guidelines on when the cameras should be activated and how the footage is handled is essential," he said.

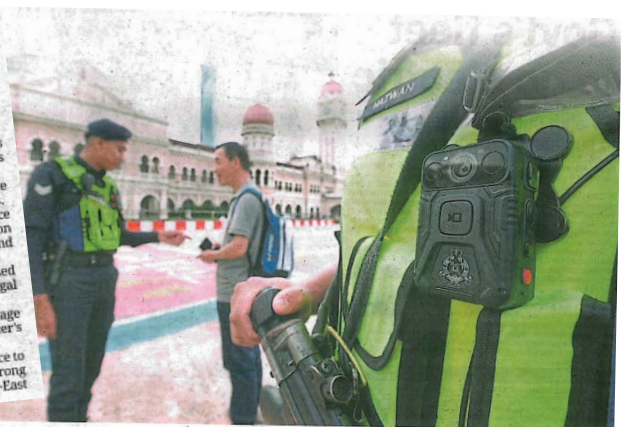

He said recorded footage can also be used as training material for new officers.

"By analysing real interactions, police departments can better train officers on de-escalation tactics, communication and effective response."

"Video footage provides an unbiased account of events that can be used in legal proceedings," he said.

"In contentious situations, the footage can act as evidence to support an officer's version of events."

"With careful planning and adherence to best practices, Malaysia can be a strong example for other nations in South-East Asia," he said.
